1. D0.3 Web site implantation

The website of the project has been published using the .eu extension, and it is accessible at the address <http://www.geopkdd.eu>

The site is organized into two parts:

- The extranet, devoted to the dissemination of the contents of the project;
- The intranet, privately accessible, used to facilitate the interaction among the partners

1.1. *The Extranet*

The design of the public site has been designed to recall the logo of the project and to give the visitor a clean and easily readable interface. The whole site follows the W3C recommendation documents and it validates against the *Strict XHTML 1.0 Document Definition* provided by the *W3C consortium*

1.1.1. Visit Statistics

The collected statistics refers to the visits since 21 February 2006 (when we moved to the domain with .eu extension).

At the time writing, we received 2158 distinct visits with 8449 pages loaded.

The following is a table that summarizes the traffic load of the site during the last year:

Month	Hits	Visits
December 2006	635	225
November 2006	904	308
October 2006	1024	351
September 2006	895	259
August 2006	812	137
July 2006	405	170
June 2006	424	142
May 2006	752	213
April 2006	726	171
March 2006	1808	173
February 2006	68	9

The top 20 referring domains are:

 At the URL <http://www.geopkdd.eu/?s=stats> it is presented a visualization of the origin of the last accesses to site, using the Google™ Maps API.

1.2. *Intranet*

The intranet has been design to give a common area to exchange files, documents and comments among the partners. The intranet is password protected and each resource of the project has been assigned a login and a password.

These are the main sections of the web application:
